Sollers Consulting is more than a consultancy and software integrator. As a company founded in 2000, our mission has been the transformation of the financial & insurance industries by helping them to adapt to new technologies.

The power of collaboration and the limitless potential of Sollers people are at the root of our success. We strive to be the best at what we do, both in the eyes of our team and our customers. We put people (we are over 1000!) at the heart of every project, as we are:

Powered by Teamwork: Together, we tackle challenges, share knowledge, and support each other to achieve remarkable results. We value teamwork and flat company structure much more than policy.

Boosted by Opportunities for Growth: A clear career and salary path, an individual budget for training, language courses and an internal community of experts, sharing their knowledge during our inspirational sessions – you can expect all this. Everything to help you grow with us.

Shaped by Flexibility: Embrace a flexible and inclusive work culture that supports your individual needs. Flexibility here has many faces, and we will find the best, mutually beneficial solutions.

Assured by the Company Vision and Stability: Long-term relations and common values with our clients (mostly from the insurance industry), end-to-end international projects make us provide a stable employment in unstable times.
