Boolean – a leading supplier of maintenance services in the field of navigation and maritime communications. Our mission is to ensure high quality services including the supply of necessary equipment, its start-up, checks and all required maintenance. The main activity of the company are repairs of navigation and communication systems on merchant ships. The satisfaction of the clients cooperating with us is our Company's priority. We can present a competitive offer to you, both in terms of quality and price. Our team consists of highly skilled engineers who have been active in the maritime sector for over ten years. However, in spite of this long-term experience, we put significant emphasis on the continued improvement of our skills in the field of navigation and maritime communication. We employ the best specialists in the sector. For 7 days a week and 24 hours a day, we are available so as to guarantee the technical support at any time, keeping you informed on the progress. In cases of emergency, we are capable of providing the assistance you need also by phone.

The Company's operational headquarter is located in Szczecin. Such location enables easy and quick access to the Western European ports, as well as rapid access to international airport in Berlin, from where we may be transferred to any given place in the world. Our solid advantage is individual approach to every client. We consider each assignment separately, in order to ensure maximum satisfaction of all clients. We care for excellent organization, timeliness and price competitiveness. The completion of our assignments always runs very professionally, which in practice means: quickly, efficiently and professionally.
